北京大學

# Outline

## ❑ Background / Motivation

- Machine Reading Comprehension (MRC)
- Why Multi-Passage MRC is Challenging?

## ❑ Model Architecture

- Answer Boundary Prediction
- Answer Content Modeling
- Cross-Passage Answer Verification
- Joint Training and Prediction

## ❑ Experiments

- Results on MS-MARCO and DuReader
- Ablation Study
- Quantitative Analysis

## ❑ Conclusion

# Machine Reading Comprehension (MRC)

**Passage:** ... Tesla later approached Morgan to ask for more funds to build a more powerful transmitter. When asked where all the money had gone, Tesla responded by saying that he was affected by the Panic of 1901, which he (Morgan) had caused Morgan was shocked by the reminder of his part in the stock market ...

**Question:** On what did Tesla blame for the loss of the initial money?

[from SQuAD v1.1<sup>[1]</sup>]

# Machine Reading Comprehension (MRC)

**Passage:** ... Tesla later approached Morgan to ask for more funds to build a more powerful transmitter. **When asked where all the money had gone, Tesla responded by saying that he was affected by the Panic of 1901**, which he (Morgan) had caused Morgan was shocked by the reminder of his part in the stock market ...

**Question:** On what did Tesla blame for the loss of the initial money?

**Answer:** Panic of 1901

[from SQuAD v1.1<sup>[1]</sup>]

# Machine Reading Comprehension (MRC)

**Passage:** ... Tesla later approached Morgan to ask for more funds to build a more powerful transmitter. **When asked where all the money had gone, Tesla responded by saying that he was affected by the Panic of 1901**, which he (Morgan) had caused Morgan was shocked by the reminder of his part in the stock market ...

**Question:** On what did Tesla blame for the loss of the initial money?

**Answer:** Panic of 1901

[from SQuAD v1.1<sup>[1]</sup>]

**Single-passage MRC**

# Machine Reading Comprehension (MRC)

**Passage:** ... Tesla later approached Morgan to ask for more funds to build a more powerful transmitter. **When asked where all the money had gone, Tesla responded by saying that he was affected by the Panic of 1901**, which he (Morgan) had caused Morgan was shocked by the reminder of his part in the stock market ...

**Question:** On what did Tesla blame for the loss of the initial money?

**Answer:** Panic of 1901

[from SQuAD v1.1<sup>[1]</sup>]

## Single-passage MRC

- **Different types:** cloze test, entity extraction, span extraction, multiple-choice ...
- **Various models:** Match-LSTM<sup>[2]</sup>, BiDAF<sup>[3]</sup>, R-Net<sup>[4]</sup>, QANet<sup>[5]</sup> ...
- **Very impressive performance**

# An Example from MS-MARCO<sup>[6]</sup> Dataset

**Question:** What is the difference between a mixed and pure culture?

**Passages:**

- 1) A culture is a society's total way of living and a society is a group that live in a defined territory and participate in common culture. While the answer given is . . .
- 2) . . . The mixed economy is a balance between socialism and capitalism. As a result, some institutions are owned and maintained by . . .
- 3) A pure culture is one in which only one kind of microbial species is found whereas in mixed culture two or more microbial species formed colonies. Culture on the . . .
- 4) . . . A pure culture comprises a single species or strains. A mixed culture is taken from a source and may contain multiple strains or species. A contaminated . . .
- 5) . . . It will be at that time when we can truly obtain a pure culture. A pure culture is a culture consisting of only one strain. You can obtain a pure culture by picking . . .
- 6) A pure culture is one in which only one kind of microbial species is found whereas in mixed culture two or more microbial species formed colonies. A pure culture . . .

# An Example from MS-MARCO <sup>[6]</sup> Dataset

**Question:** What is the difference between a mixed and pure culture?

**Passages:**

■ Correct

- 1) A culture is a society's total way of living and a society is a group that live in a defined territory and participate in common culture. While the answer given is . . .
- 2) . . . The mixed economy is a balance between socialism and capitalism. As a result, some institutions are owned and maintained by . . .
- 3) **A pure culture is one in which only one kind of microbial species is found whereas in mixed culture two or more microbial species formed colonies.** Culture on the . . .
- 4) . . . A pure culture comprises a single species or strains. A mixed culture is taken from a source and may contain multiple strains or species. A contaminated . . .
- 5) . . . It will be at that time when we can truly obtain a pure culture. A pure culture is a culture consisting of only one strain. You can obtain a pure culture by picking . . .
- 6) **A pure culture is one in which only one kind of microbial species is found whereas in mixed culture two or more microbial species formed colonies.** A pure culture . . .

# An Example from MS-MARCO <sup>[6]</sup> Dataset

**Question:** What is the difference between a mixed and pure culture?

**Passages:**

■ Partially Correct

- 1) A culture is a society's total way of living and a society is a group that live in a defined territory and participate in common culture. While the answer given is . . .
- 2) . . . The mixed economy is a balance between socialism and capitalism. As a result, some institutions are owned and maintained by . . .
- 3) A pure culture is one in which only one kind of microbial species is found whereas in mixed culture two or more microbial species formed colonies. Culture on the . . .
- 4) . . . **A pure culture comprises a single species or strains. A mixed culture is taken from a source and may contain multiple strains or species.** A contaminated . . .
- 5) . . . It will be at that time when we can truly obtain a pure culture. **A pure culture is a culture consisting of only one strain.** You can obtain a pure culture by picking . . .
- 6) A pure culture is one in which only one kind of microbial species is found whereas in mixed culture two or more microbial species formed colonies. A pure culture . . .

Correct Answer

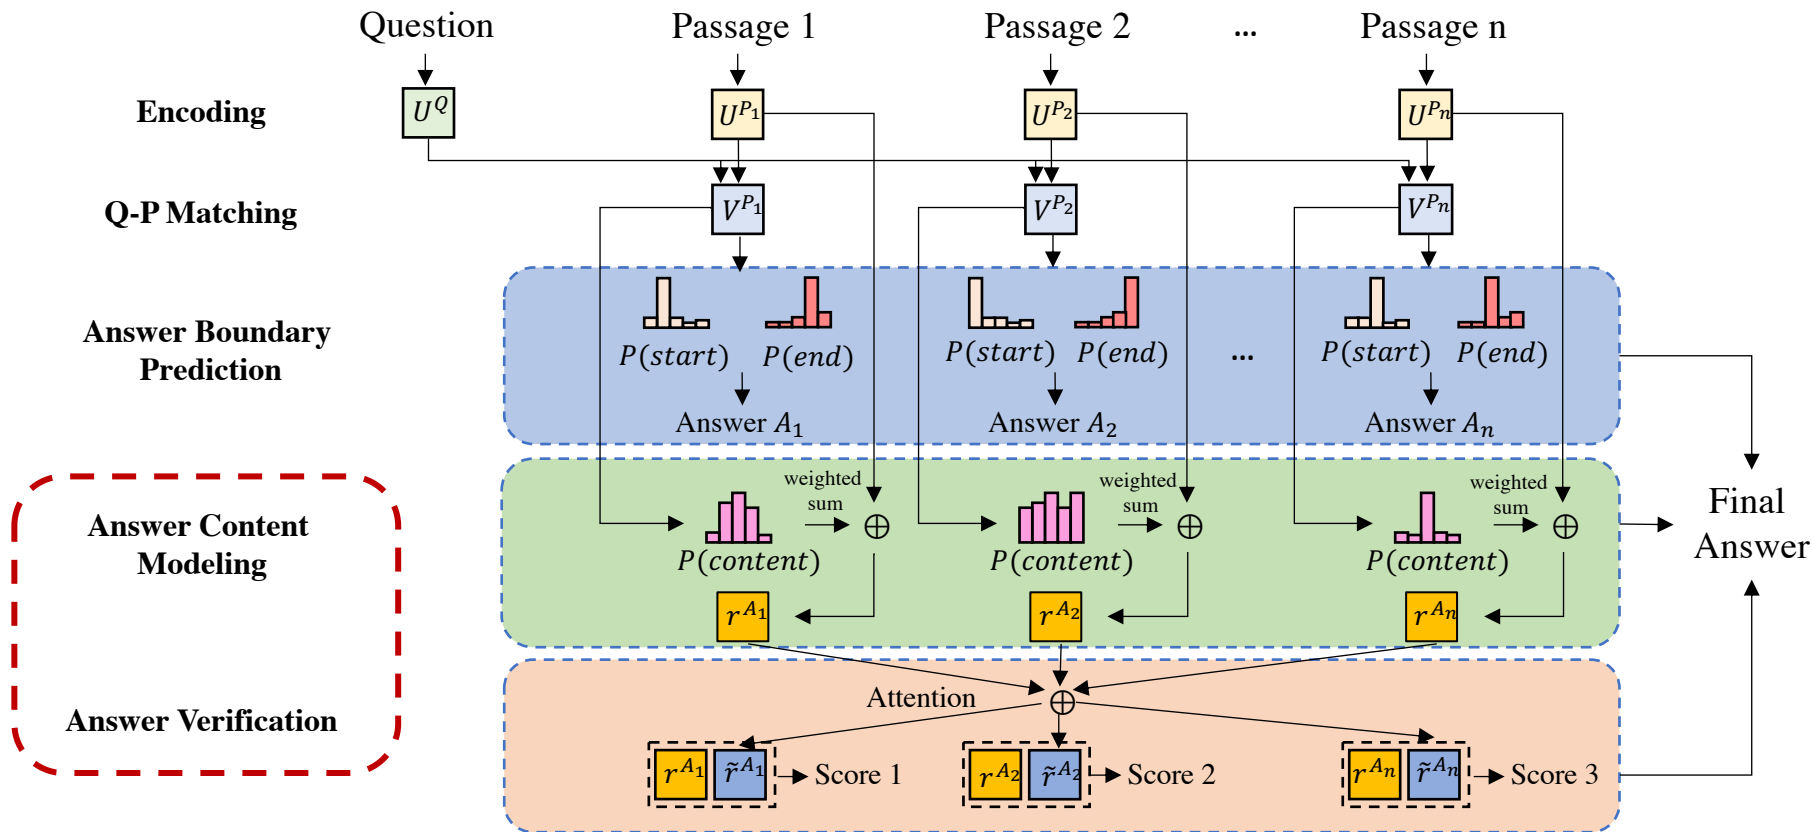

# Overview of Our Model

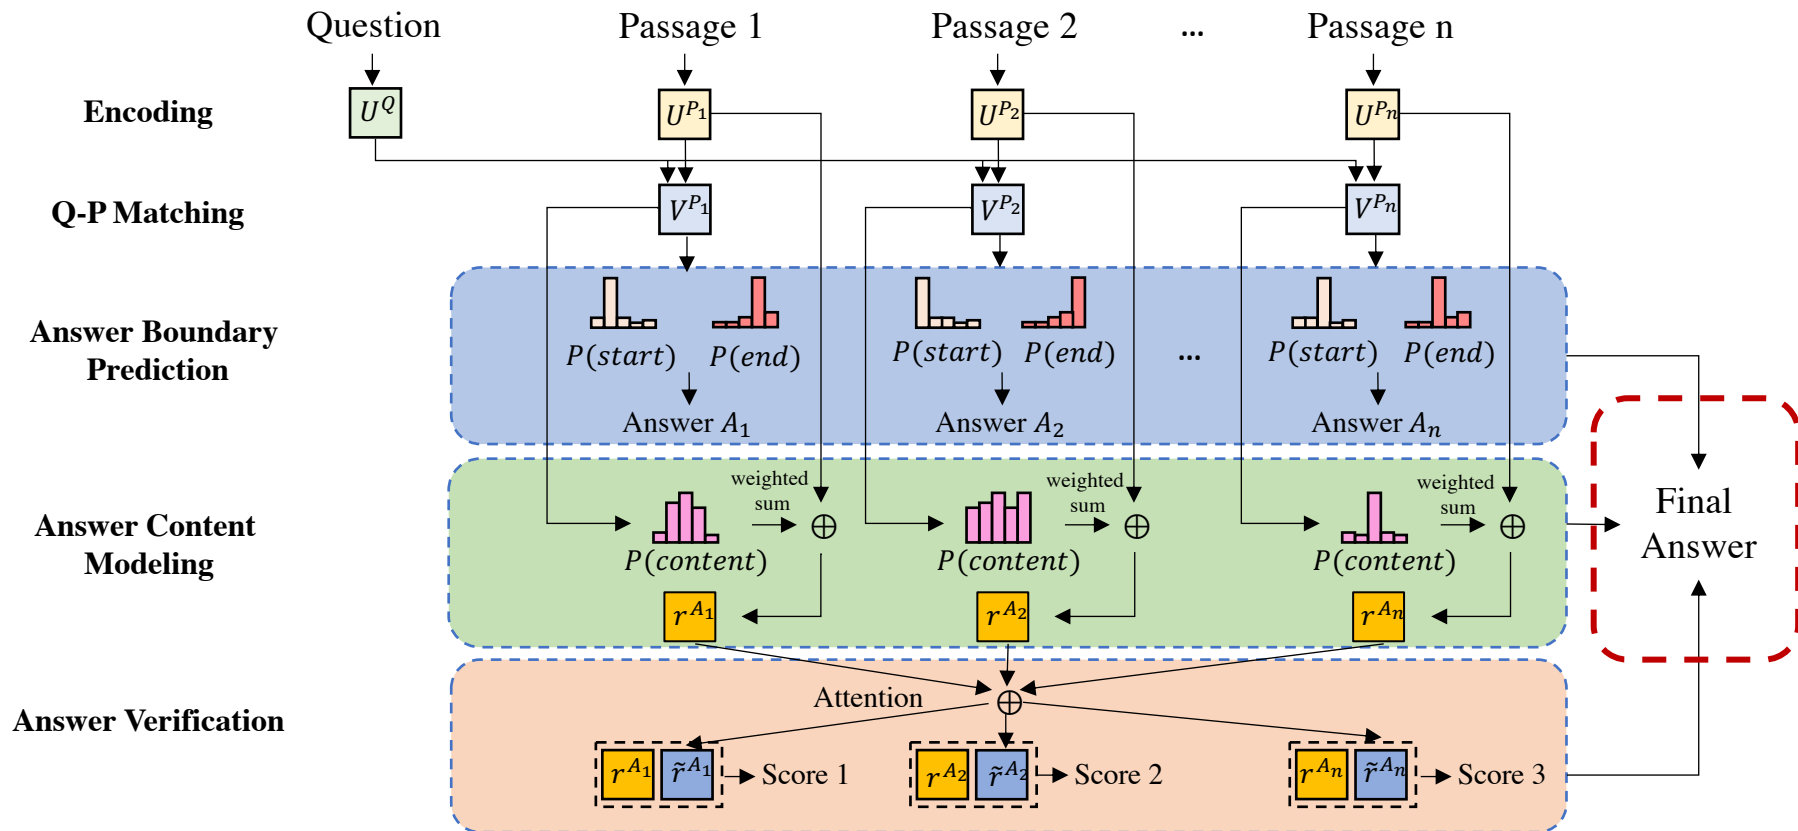

# Overview of Our Model

# Overview of Our Model

# Overview of Our Model

# Input

Question

Passage 1

Passage 2

...

Passage n

# Question and Passage Encoding

- Encoding with Bi-LSTM:

$$\mathbf{u}_t^Q = \text{BiLSTM}_Q(\mathbf{u}_{t-1}^Q, [\mathbf{e}_t^Q, \mathbf{c}_t^Q])$$

$$\mathbf{u}_t^{P_i} = \text{BiLSTM}_P(\mathbf{u}_{t-1}^{P_i}, [\mathbf{e}_t^{P_i}, \mathbf{c}_t^{P_i}])$$

# Question-Passage Matching

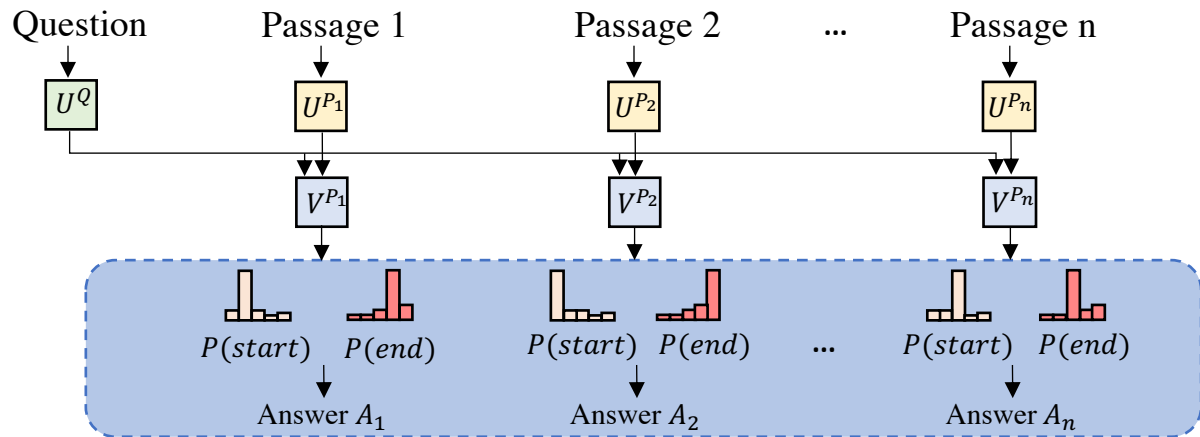

- Bi-directional Attention Flow  
(Seo et al., 2016)
- Dot attention matrix:

$$S_{t,k} = \mathbf{u}_t^{Q\top} \cdot \mathbf{u}_k^{P_i}$$

# Answer Boundary Prediction

- Start and end pointer:

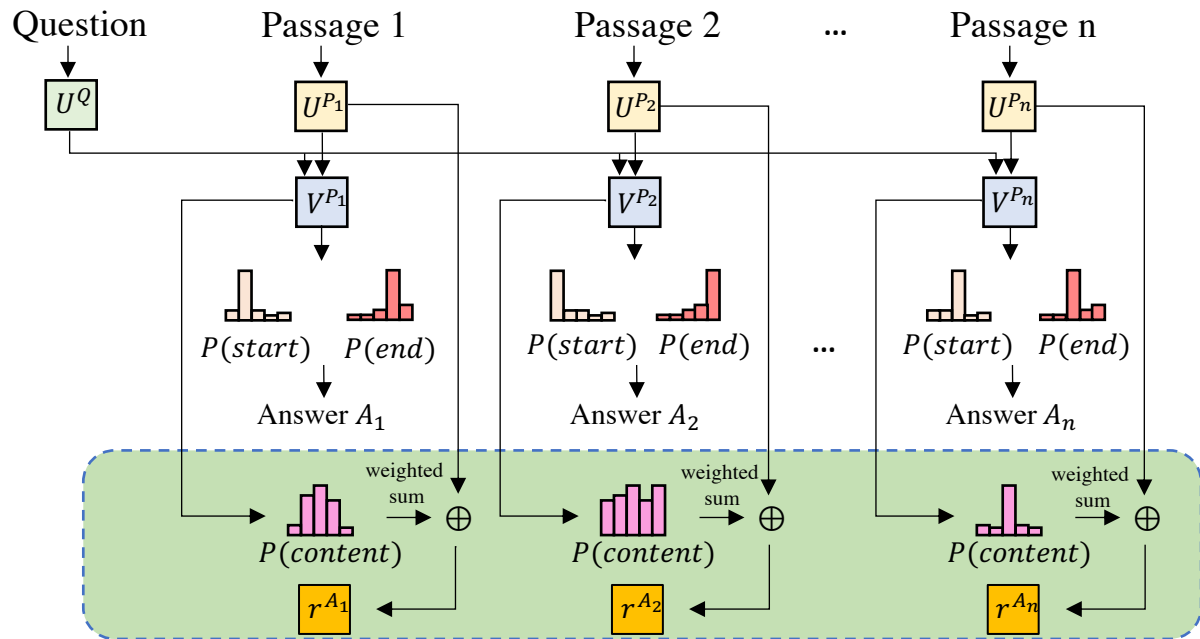

$$g_k^t = \mathbf{w}_1^{a\top} \tanh(\mathbf{W}_2^a [\mathbf{v}_k^P, \mathbf{h}_{t-1}^a])$$

$$\alpha_k^t = \exp(g_k^t) / \sum_{j=1}^{|\mathbf{P}|} \exp(g_j^t)$$

$$\mathbf{c}_t = \sum_{k=1}^{|\mathbf{P}|} \alpha_k^t \mathbf{v}_k^P$$

$$\mathbf{h}_t^a = \text{LSTM}(\mathbf{h}_{t-1}^a, \mathbf{c}_t)$$

# Answer Content Modeling

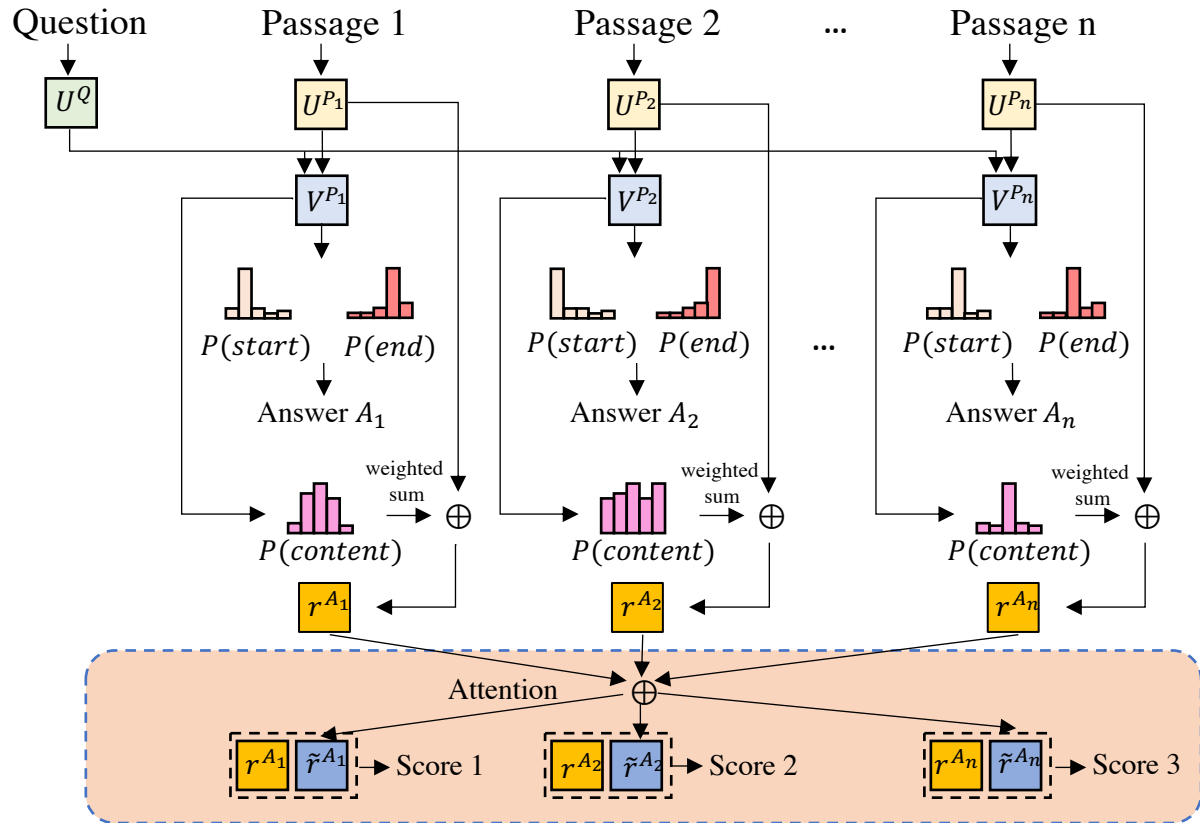

- Content score for each word:

$$p_k^c = \text{sigmoid}(\mathbf{w}_1^{c\top} \text{ReLU}(\mathbf{W}_2^c \mathbf{v}_k^{P_i}))$$

- Representation for  $A^i$ :

$$\mathbf{r}^{A_i} = \frac{1}{|\mathbf{P}_i|} \sum_{k=1}^{|\mathbf{P}_i|} p_k^c [\mathbf{e}_k^{P_i}, \mathbf{c}_k^{P_i}]$$

# Cross-Passage Answer Verification

- Ans-to-ans Attention:

$$s_{i,j} = \begin{cases} 0, & \text{if } i = j, \\ \mathbf{r}^{A_i \top} \cdot \mathbf{r}^{A_j}, & \text{otherwise} \end{cases}$$

$$\alpha_{i,j} = \exp(s_{i,j}) / \sum_{k=1}^n \exp(s_{i,k})$$

$$\tilde{\mathbf{r}}^{A_i} = \sum_{j=1}^n \alpha_{i,j} \mathbf{r}^{A_j}$$

- Verification score:

$$g_i^v = \mathbf{w}^{v \top} [\mathbf{r}^{A_i}, \tilde{\mathbf{r}}^{A_i}, \mathbf{r}^{A_i} \odot \tilde{\mathbf{r}}^{A_i}]$$

$$p_i^v = \exp(g_i^v) / \sum_{j=1}^n \exp(g_j^v)$$

# Joint Training and Prediction

- **Three objectives:**
  - Finding the boundary of the answer
  - Predicting whether each word should be included in the answer
  - Selecting the best answer from all the candidates

- **Training Loss:**

$$\mathcal{L}_{\text{joint}} = \mathcal{L}_{\text{boundary}} + \beta_1 \mathcal{L}_{\text{content}} + \beta_2 \mathcal{L}_{\text{verify}}$$

- **Prediction:**

$$\text{Score} = S_{\text{boundary}} \times S_{\text{content}} \times S_{\text{verify}}$$

	Boundary	Content	Verification
Answer Candidates:			
[1] A culture is a society's total way of living and a society is a group ...	$1.0 \times 10^{-2}$	$1.0 \times 10^{-1}$	$1.1 \times 10^{-1}$
[2] The mixed economy is a balance between socialism and capitalism.	$1.0 \times 10^{-4}$	$4.0 \times 10^{-2}$	$3.2 \times 10^{-2}$
[3] A pure culture is one in which only one kind of microbial species is ...	$5.5 \times 10^{-3}$	$7.7 \times 10^{-2}$	$1.2 \times 10^{-1}$
[4] A pure culture comprises a single species or strains. A mixed ...	$2.7 \times 10^{-3}$	$8.1 \times 10^{-2}$	$1.3 \times 10^{-1}$
[5] A pure culture is a culture consisting of only one strain.	$5.8 \times 10^{-4}$	$7.9 \times 10^{-2}$	$5.1 \times 10^{-2}$
[6] A pure culture is one in which only one kind of microbial species ...	$5.8 \times 10^{-3}$	$9.1 \times 10^{-2}$	$2.7 \times 10^{-1}$
.....		.....	

Correct answer is selected by considering verification!

# Necessity of the Content Model

# Necessity of the Content Model

# Necessity of the Content Model

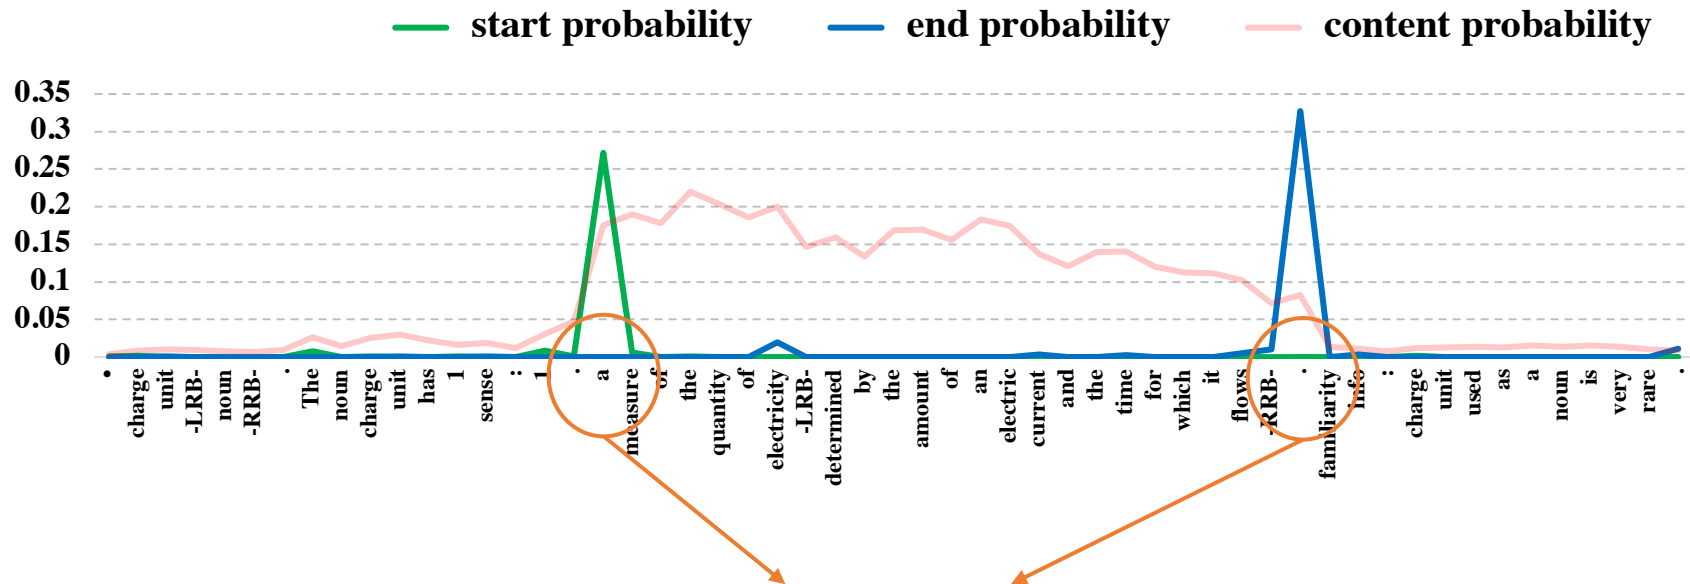

# Visualization of the Probability Distribution

# Necessity of the Content Model

When the answer is long, boundary words carry little information.

# Necessity of the Content Model

Content words reflect the real semantics of this answer.

# Conclusion

- **Multi-passage MRC:** much more misleading answers
- **End-to-end model for multi-passage MRC:**
  - Find the answer boundary
  - Model the answer content
  - Cross-passage answer verification
  - Joint training and prediction
- **SOTA performance on two datasets created from real-world web data:**
  - MS-MARCO (English)
  - DuReader (Chinese)
